

BXT

Battery Powered Combination Tool for Polyester and Polypropylene Strapping

Charger and two batteries included

Easy operation

- Ergonomic design reduces operator fatigue
- Two-button process ensures simple operation

Maximum uptime

- High speed performance increases efficiency
- Simultaneous loading of both strap ends minimizes loading time

Improved battery power

- Output of 100–200 strapping cycles between recharges maximizes productivity
- Battery recharges in only 60 minutes
- Low battery level still supplies peak tension levels

Specifications

Strapping: For use with 1/2" and 5/8" (12mm and 16mm) polyester and polypropylene strapping

Weight: 9 lbs

Tension Rating: 90–500 lbs
